ARREST-RELATED, EXCITED DELIRIUM, SUDDEN, IN-CUSTODY DEATH CONFERENCE

Las Vegas • November 17-19, 2010

Presented by world-class medical researchers, medical examiners, lawyers, law enforcement and medical practitioners

INSTITUTE FOR THE PREVENTION OF IN-CUSTODY DEATHS, INC.

MULTIDISCIPLINARY APPROACH

TRANSDISCIPLINARY SOLUTIONS

5TH ANNUAL IPICD CONFERENCE

New Topics! New Speakers! Same Great Location!

A THREE-DAY PROGRAM FOR

Chiefs and Sheriffs • Law enforcement administrators • Medical Examiners
Coroners • Forensic investigators • Police officers • Internal Investigators
Correctional administrators • Correctional officers • Risk managers
Trainers • City and county attorneys • Expert witnesses
Emergency medical service directors • Emergency Department physicians
Paramedics and EMTs • Mental health providers • Forensic Investigators

SEATING IS LIMITED • REGISTER TODAY!

Dr. Steven Gundry, M.D.
Preventing your own sudden death...
BREADTH = DEPTH = APPLICATION

Arrest-related and in-custody sudden deaths have gained more visibility as they continue to plague law enforcement agencies and communities across the globe. Controversy and negative publicity have also increased, particularly when electronic control devices (ECD) or prone restraint techniques were associated with these deaths, or when the autopsies were negative. Using lecture, PowerPoint® slides, in-car camera and other digital media, and/or live demonstrations the 2010 Conference’s topics are broadly divided into BREADTH, DEPTH, and/or APPLICATION.

Breadth focuses upon the research and theories (seminal and current) about arrest-related and sudden, in-custody deaths (e.g., excited delirium; Post-traumatic Stress Disorder (PTSD); suicide by cop; heart disease; stimulants; positional asphyxia, etc.). For example, hear Dr. Tom Neuman, M.D. explain the science and the politics surrounding positional asphyxia, or Dr. Steven Karch, M.D. discuss heart disease and sudden death in stimulant abusers. Dr. Gary Vilke, M.D. will discuss recent scientific ECD research. The latest scientific and medical research about these and related topics will be presented by world-class scientists and researchers.

Depth focuses upon the issues surrounding arrest-related and sudden, in-custody deaths: on the street, in jails or prisons, in hospitals, in the courtroom, and in emergency medical situations involving law enforcement officers, governmental entities, paramedics and emergency medical technicians, lawyers, and others. Comparing and contrasting arrest-related and sudden death theories with scientific, medical, legal, and tactical research, presenters will discuss what has been done and what is being done to prove, disprove, and/or alter theories, attitudes, organizational culture, and public perception about arrest-related and/or sudden in-custody deaths. For example: attorney Eric Daigle, J.D. shares what the courts have said about multiple ECD deployments and/or ECD discharges (use of force) on individuals; attorney Carrie Hill, J.D. interprets and discusses how the Americans with Disabilities Act applies to arrested-related and in-custody deaths, plus updating the law on correctional use of force; Captain Rick Wall explains how PTSD affects jail and/or prison in-custody deaths, suicide by cop, and arrest-related deaths; Officer Michael Leonesio (also an IPICD Staff Instructor) explains the importance of identifying, collecting, and forensically analyzing ECD evidence for use in arrest-related, in-custody deaths and officer injury events, and the compelling evidentiary reasons why ECDs must be electronically tested to make sure they are within manufacturer specifications; plus much more.

Application focuses on the practical and/or tactical information you can apply and use. Heed Dr. Steven Gundry’s, M.D. advice about what you can do to minimize, prevent, and/or reverse coronary artery disease that can cause or contribute to your own sudden death! Apply the lessons learned from Lt. Kevin Wright’s experience to your own agency about a tragic in-custody death and how officers faced criminal charges and discipline. Some were convicted. Practice the advice and tips from Officer Bill Cassell, Public Information Officer for L.V.M.P.D., when discussing arrest-related deaths with the media. Hear and see Lt. Michael Paulus and others explain and show quick and safe restraint techniques and devices for controlling and restraining combative individuals. Watch Ellis Amdur demonstrate verbal de-escalation strategies and discuss how to verbally manage individuals who are in a state of rage, disorganized, or chaotic. Join Officer Michael Leonesio as you identify and discuss ECD evidence for use in criminal, civil, and internal investigations. Discover the progress made in highlighting excited delirium within a United Kingdom Police Department from Detective Chief Inspector Jane Scotchbrook and Hilary Carmichael; plus much more!

CONFERENCE NOTES

- All presentations will be held at The Orleans Hotel.
- Wednesday registration is from 7:00 a.m. – 8:00 a.m. (Pacific Time)
- Conference hours: Wednesday, 8:00 a.m. – 5:00 p.m.; Thursday, 8:00 a.m. – 5:00 p.m.; Friday, 8:00 a.m. – Noon.
- Tuition includes luncheons on Wednesday & Thursday.
- Conference attendance is limited, so register with payment early.
- Conference seating will be behind tables to facilitate discussion and taking notes.
- Education, training, and/or familiarity with sudden death, excited delirium, science, medical concepts, and/or legal concepts are not necessary. Presentation techniques and topical information will benefit those in attendance. Participation is encouraged.
- IPICD staff and speakers, as their schedules permit, will be available during the Conference to answer questions.

WORKSHOP MATERIALS

Each attendee who is registered will be provided during first morning registration:

- One workbook that contains copyrighted presentation outlines and other information.
- One CD-ROM containing Conference and other materials.
- One certificate for attendance.
- One text, checklists and other documents.

MANDATORY CONTINUING LEGAL EDUCATION

The IPICD has made application for continuing legal education credit in Nevada, and approval is expected. The 2009 Conference was awarded 17.0 CLE hours. Please check the IPICD Web site, as approval notifications will be posted.

AELE CODE SHARING PROGRAM

The 2010 IPICD 5th Annual Conference counts as one program toward the Americans For Effective Law Enforcement (AELE) Certified Litigation Specialist designation.

Want to host an IPICD Instructor Program? E-mail us: staff @ ipicd.com

A portion of the 2010 Conference net proceeds will be made available to fund excited delirium and/or arrest-related death scientific research.
2010 SPEAKERS & TOPICS

Special Conference session on Wednesday, 5:00 – 6:00 p.m.: Use-of-Force Analysis;
Split-Session Presentations on Thursday afternoon, 4:00 – 5:00 p.m.
Don’t miss, “Ask the Experts” question and answer session from 5:00 - 6:30 p.m. on Thursday.

IPICD Sudden & In-Custody Death Registration Form

Please complete the Registration Form. If sending payment, cut along the dotted line and mail the registration form with payment to the IPICD.

To pay by credit card, fax the completed Registration Form to 888.811.2358 (toll free)

Please mail to: IPICD, Inc.
209 South Stephanie Street
Suite B-249
Henderson, NV 89012 USA

Cancellation policy: Tuition is subject to a $250 cancellation fee if cancellation is made after October 17, 2010. There is no penalty for attendant substitutions.

Program registration form is also available at: www.ipicd.com, “Fall Conference”. If you have difficulty registering online, please call: 866.944.4723 to register via telephone.

TUITION:
Registration and payment, if postmarked or paid on or before October 17, 2010 is $695 per person; $795 per person, if postmarked or registered after October 17, 2010. Tuition includes: presentations, workbook, lunch on Wednesday and Thursday, certificate, user-level, Excited Delirium Roll Call mini-poster.

The Orleans Hotel

The Orleans Hotel is located near the famous Las Vegas "Strip". A limited number of rooms have been “blocked” or “reserved” on a space-available basis at $40 per night (single or double occupancy), plus applicable taxes, and other hotel fees. There is a mandatory $5.00 resort fee per room, per day, which includes access to the Fitness Center, in-room coffee, unlimited local and 800 calls as well as free High-Speed Internet access in the Business Center. The cut-off date for room reservations is Sunday, October 17, 2010. Photo ID is required by the hotel upon check-in. To reserve a room, please call The Orleans Room Reservation Department at 800.675.3267, and use group code IPIC11 in order to receive the special group rate. Reservations can also be made online by visiting www.orleanscasino.com, clicking on “Book a Room” and entering the Group Code IPIC11 in the Group Code field. The credit card will be charged for a minimum of one night’s room and tax at the time the reservation is made. Hotel policy for cancellation of an individual guaranteed reservation is at least 72-hours prior to arrival. For more information about Las Vegas hotels, please visit www.vegas.com.
