Registration Deadline: September 5, 2018

Time: 8:00am - 5:00pm (One Hour For Lunch)

Program Content:

"Almost any use of force, however minute, poses some risk of death" (Garrett v. Athens-Clark County, 378 F.3d 1274, 1280, FN12 (11th Cir., 2004)). The application of restraints is a use of force, and many times officers have needed to timely and safely restrain individuals who were combative, resistive, and/or in an agitated state. This 8-hour instructor program shows how to apply and also teach two popular restraint devices: The WRAP Restraint System, and the TARP Strap. Two instructor certificates will be issued upon successful completion of the program.

Topics:

- Introduction to restraints,
- Crisis management and social issues,
- Contemporary theories about restraint-associated death,
- Agonal breathing signs and responses,
- Restraints and sudden death,
- Managing liability risk through "core task" training and testing,
- Managing liability risk through "essential skill" training and testing,
- Arrest- and sudden-death related restraint judicial decisions,
- Americans with Disabilities Act,
- The WRAP Restraint (its application, research findings, "Best Practices," etc.),
- Alignment of policy, lesson plans, training, testing, and report writing,
- Plus more.

Tuition:

\$195 per person, if taken singly; \$125 per person when taken with another IPICD program that same week, or for additional people from the same agency. Pre-payment required. Credit cards, checks and purchase orders accepted. Participants are responsible for their transportation, lodging, and food cost.

Make check or purchase order payable to:
IPICD, INC. EIN# 20-2621427

Instructor & Materials:

A. David Berman, M.S.; John G. Peters, Jr., Ph.D.; and/or IPICD Restraint Specialist.

Materials:

Tuition includes instructor workbook, The WRAP Restraint System study, instructional manual, lesson plan, instruction, TARP strap, certificates, online updates, and more.
